

Clarity Pharma, Clarity Global Group and Clarity Medtech Business Environmental Policy

The Business Environmental Policy of Clarity Pharma, Clarity Global Group and Clarity Medtech (the “Company”) is to ensure so far as it is reasonably practicable that the Company operates with a commitment to protecting and enhancing the environment.

We are aware of our environmental impact as a business and have taken and continue to take appropriate steps to mitigate that impact, including setting environmental objectives and targets, implementing procedures and providing training so employees and contractors understand their environmental responsibilities and can seek to improve our environmental performance.

1. Our stated aims are to:

- 1.1. Aim to continuously improve our environmental performance particularly with regards to our recycling and energy usage.
- 1.2. Where possible we will use economically friendly paper in our offices.
- 1.3. As far as possible arrange for the reuse or recycling of office waste, including paper, computer supplies and redundant equipment.
- 1.4. Reduce the energy consumption of office equipment by purchasing energy efficient equipment and good housekeeping.
- 1.5. Reduce our consumer waste by limiting the use of paper, to improve the efficiency of those resources by printing only when required and practicable as a paperless office.
- 1.6. Purchase electricity from a supplier committed to renewable energy, where possible. Seek to maximise the proportion from renewable energy sources, whilst also supporting new renewable energy schemes.
- 1.7. Use products and packaging which use as little material as possible, to make it easier to reuse and recycle when they're no longer needed.
- 1.8. Comply with all relevant environmental legislation.
